

CASE STUDY • THE PLAYBOOK NUMBERS

₹8L in. ₹66L out. 8.25×
in 90 days, from eight
ordinary systems
refusing to drop a lead.

THE SYSTEM

Eight systems assembled into one growth machine: a **content layer** that manufactures presence and an **outreach layer** that manufactures conversations.

The situation

Outreach without content is a stranger pitching. Content without outreach is a genius nobody visits. Wired together, every cold touch lands on a warm surface and the funnel multiplies instead of adds.

That connection is the whole game, and it is exactly the part most businesses never build.

What they did

- 1

Content layer (issues 2 to 12): ecommerce pipeline, repurposing engine, poster factory, carousel line. Manufactures presence.
- 2

Outreach layer (issues 4 to 5, 15 to 18): WhatsApp speed-to-lead, reactivation, connection engine, email machine. Manufactures conversations.
- 3

Wired the two together so every cold touch landed on a warm surface.
- 4

Ran it daily for 90 days, dropping no lead, then handed the pipeline to the team.

The result, 90 days

₹8,00,000 in →
₹66,00,000 out

8.25× return in 3 months, and a pipeline ready to hand to the team by day 90.

₹8L

marketing spend activated

₹66L

revenue generated in 3 months

8.25×

return on the spend

90 days

to a team-ready pipeline

	BEFORE	AFTER
Spend → return	₹8L	₹66L
Layers	siloes	wired
Leads dropped	daily	none
Pipeline	founder-run	team-ready
