HOW THE TOOL SUBSCRIPTIONS ARE BILLED

OPTION A · RECOMMENDED

On your accounts

You hold ManyChat, the enrichment tool, email and Sales Navigator under **Successive's own logins**, and pay the platforms directly. You keep full ownership and control, and my fee stays clean.

OPTION B

On my accounts, passed through

I run the subscriptions on my logins and **pass the cost through at actuals with receipts**, added to the monthly invoice. Simpler for you, same price, no markup. You pick whichever is easier.

HOW I'LL HELP · IDEATION

Where I'd point the machine first.

Ideation only. These are starting examples drawn from your website. We lock the real ICP, message angles and content calendar together on the kickoff call, after I have your sales context.

A FIRST-PASS OUTREACH ICP FOR SUCCESSIVE

WHO WE REACH

The buyers, not the inbox

- ✗ Quotes, proposals and negotiation
- ✗ Closing, contracts and payment
- ✗ Owning the relationship after handoff
- ✗ Anything that is selling, not sourcing
