

THE OUTREACH MACHINE

I build the system that fills your pipeline. *On autopilot, across every channel.*

B2B lead generation breaks for one reason: it depends on a person showing up. Someone has to write the message, send the follow-up, post the content, chase the reply. The day your team gets busy, pipeline stops. **I replace that with one AI-run outreach machine** that does it every single day across LinkedIn, email, Instagram and WhatsApp, and shows you exactly what it produced. Automation is not a strategy. It is the infrastructure your growth runs on.

LinkedIn

Connect, message and post, automated daily

Email

Cold outreach plus a 20-issue nurture drip

Instagram

Carousels and posts published every day

WhatsApp

ManyChat flows that qualify and book

THE SHIFT

From doing outreach to owning the machine that does it.

Same goal, opposite economics. One depends on willpower and hours. The other runs while you sleep and logs every action it takes.

The manual way

WHAT MOST TEAMS DO

- x Outreach depends on a human remembering to do it
- x One channel at a time, copy-pasted by hand
- x Follow-ups slip, warm leads quietly go cold
- x Content gets posted only when there is time
- x No proof of what actually went out, or to whom

The machine

WHAT I BUILD FOR YOU

- + Runs daily on its own, unattended, every morning
- + LinkedIn, email, Instagram and WhatsApp as one engine
- + Every follow-up sequenced, sent and tracked
- + Content posts itself across channels, every day
- + Every send logged and verified, alerts on anything unsure

BUILT TO RUN, NOT TO DEMO

The numbers behind the engine.

4

Channels driven by one AI system

Daily

Autonomous send and post, no human in the loop

20

Issue nurture series, auto-dripped to every lead

5,000+

New connections reached per month, and beyond

WHAT I BUILD

Five systems. One growth infrastructure.

Practical AI systems for teams that need more qualified demand, outreach that never stops, and reporting they can act on.

FLAGSHIP · THE OUTREACH MACHINE

Multi-channel B2B outreach automation

LinkedIn, email, Instagram and WhatsApp run as one daily, AI-driven machine. It sources the right accounts, personalizes the message, sends the follow-ups, posts the content and verifies every action, so pipeline keeps building whether anyone logs in or not.

LINKEDIN

EMAIL

INSTAGRAM

WHATSAPP

AUTO FOLLOW-UP

ACQUISITION

Lead gen + AI qualification

Funnels that capture demand, score intent with AI, route the right leads, and cut the manual back-and-forth before sales picks up the phone.

LEAD CAPTURE

AI SCORING

CRM ROUTING

GROWTH

Performance marketing

Meta, Google and WhatsApp full-funnel campaigns with server-side tracking, CAPI, creative testing and conversion loops that actually attribute.

META

GOOGLE

PIXEL + CAPI

CONTENT OPS

Content pipeline automation

Briefs, assets and approvals turned into repeatable publishing workflows. AI image, poster and video engines that feed every channel daily.

BRIEF TO OUTPUT

IMAGE ENGINE

DAILY PUBLISH

ENGINEERING

AI systems + dashboards

Custom agents, automations and BI dashboards built around how your business actually runs, so revenue, ops and marketing data is easy to act on.

AGENTS

AUTOMATION

DASHBOARDS

HOW IT RUNS EVERY DAY

The daily loop.

01

Source

Scrape and enrich the right accounts to your ICP

02

Qualify

AI scores intent and drops the noise

03

Reach

Personalized message across LinkedIn, email, WhatsApp

04

Nurture

20-issue value series plus daily content posted for you

05

Verify

Every send logged, every post confirmed, alert if unsure

THE LOOP REPEATS EVERY DAY, ON ITS OWN. **YOU REVIEW RESULTS, NOT RUN ERRANDS.**

CREDENTIALS · BUILT AND RUNNING

Systems I have shipped.

Outreach OS

Gmail, LinkedIn and Instagram posting plus a 20-issue newsletter, all sending autonomously on a daily schedule.

LIVE · AUTONOMOUS

Hoopr Smash

B2B lead generation engine running LinkedIn and WhatsApp outreach for a media-tech brand.

LIVE ENGAGEMENT

GutGuru

Lead funnel and CRM live at thegutguru.co.in, with Meta Pixel and server-side CAPI wired end to end.

LIVE · TRACKING

Vita+

GLP-1 acquisition funnel for high-intent leads, ManyChat WhatsApp flows, Pixel and CAPI.

FUNNEL + WHATSAPP

Content pipeline

AI image, poster and video engine that produces channel-ready assets, covered by an automated test suite.

PRODUCTION SYSTEM

Meta Ads control layer

A 135-tool automation layer over Meta ad accounts for campaign builds, insights and conversion events.

OPS AUTOMATION

Let's build your *outreach machine*.

Start with a free outreach audit. I will map your channels, your gaps and what an always-on engine would change for your pipeline.
